

SUBHRAJIT PATHAK

UX/UI Designer | User-Centered Design

+916303517628 subhrajitpathak89@gmail.com [linkedin.com](#) [Portfolio](#)

Hyderabad, India

SUMMARY

With **2.10 years of experience in Product Design**, I'm passionate about creating user-centered digital experiences that solve real problems. Skilled in Figma, UX design, and design systems, I use AI-powered tools to improve workflows and build impactful products. I focus on balancing user needs, business goals, and practical solutions to deliver meaningful experiences.

EXPERIENCE

Associate UX/UI Designer

Techdome

11/2024 - Present Hyderabad

- Delivered 8+ digital products and 5+ websites across fintech, healthtech, gaming, AI, and developer tools, leading design from requirements gathering to production.
- Led client discussions, translated business requirements into product experiences, and collaborated with developers and QA to successfully ship features.
- Designed and developed a complete fintech product using Claude Code, React, and Next.js, independently building the frontend and partnering with one developer to ship the product.
- Conducted AI-focused design sessions for the team, introducing new tools and workflows for AI-assisted prototyping, development, and product delivery.
- Built user-centered experiences and scalable design solutions across SaaS, B2B, and B2C products, aligning user needs with business and technical requirements.

Junior UX Designer

Calypsu design studio

10/2023 - 10/2024 Remote

- Contributed to branding, UI/UX, and creative projects across the **EdTech, AI wellness, fashion, food and beverage, and tax consulting industries**.
- Collaborated with the design team on a women's fitness app, creating experiences focused on workouts aligned with menstrual cycles.
- Created 3D advertisements using Blender, contributing to campaigns that generated over 100K views.
- Supported motion graphics, video editing, and 3D content production for marketing campaigns and brand communication.
- Learned and applied AI-assisted image generation and visual consistency workflows, collaborating with senior designers to improve creative production.

EDUCATION

Bachelors of arts

Andhra University, Visakhapatnam

10/2020 - 07/2023 Vizag

KEY ACHIEVEMENTS

- Award-Winning Wizlo Marketing Website:**
Led the design and development of the Wizlo marketing website, receiving an award in recognition of the quality and impact of the work.
- Delivered 8+ Digital Products & 5+ Websites**
Worked across fintech, healthtech, gaming, AI, and developer tools, collaborating with cross-functional teams to ship features to production.

Design Systems	User Research	Design-to-Code	Claude	
UX Strategy	Business Understanding	Stakeholder Management		
Agile Methodologies	Problem Solving	Visual Design		

PROJECTS

Healthcare Form Creation & Management Experience

Redesigned a complex healthcare Form Builder to simplify form creation and customization. Led the end-to-end redesign, introduced AI-assisted form creation, and collaborated with development and QA teams to deliver a more scalable and user-friendly experience.

Personalized Wealth Management Experience

Built and shipped the complete frontend of a prescription-based wealth management platform using **Claude Code, React, and Next.js**. Translated product requirements into functional user experiences, collaborated with one developer, and delivered the fintech product from concept to production.

AI-Powered Video Creation Experience

Designed an AI-powered video generation platform that helps users create, customize, and publish short-form videos. Worked on the MVP, video creation workflows, templates, autopilot planning, and publishing features to simplify content creation and improve the overall user experience.
