UX/UI Designer with 2+ years in product design and a **design-to-code** edge. Shipped **8+ digital products and 5+ websites** across fintech, healthtech, gaming, and AI, and independently built a **fintech product frontend** in React and Next.js. Skilled in Figma, design systems, and AI-assisted workflows. I balance user needs and business goals to ship!

WORK EXPERIENCE

Associate UX/UI Designer | Techdome *(Product design & development studio)*, Hyderabad, India *Nov 2024 - Present*

- Delivered **8+ digital products and 5+ websites** across fintech, healthtech, gaming, AI, and developer tools, leading design from requirements gathering to production.
- Led client discussions, translated business requirements into product experiences, and collaborated with developers and QA to **ship features to production**.
- Designed and built a **complete fintech product** with Claude Code, React, and Next.js, independently owning the frontend and partnering with one developer to ship it.
- Ran **AI-focused design sessions** for the team, introducing new tools and workflows for AI-assisted prototyping, development, and delivery.
- Built user-centered, **scalable design solutions** across SaaS, B2B, and B2C products, aligning user needs with business and technical requirements.

Junior UX Designer | Calypsu Design Studio *(Branding & creative studio)*, Remote *Oct 2023 - Oct 2024*

- Contributed to branding, UI/UX, and creative projects across **5+ industries** including EdTech, AI wellness, fashion, food and beverage, and tax consulting.
- Collaborated on a **women's fitness app**, designing experiences around workouts aligned with menstrual cycles.
- Created **3D advertisements in Blender** for campaigns that generated **100K+ views**, and supported motion graphics, video editing, and 3D content for brand communication.
- Applied **AI-assisted image generation** and visual consistency workflows with senior designers to speed up creative production.

EDUCATION

Bachelor of Arts - Andhra University, Visakhapatnam *Oct 2020 - Jul 2023*

PROJECTS

Healthcare Form Creation & Management Experience

- Led the **end-to-end redesign** of a complex healthcare Form Builder, introducing **AI-assisted form creation** and working with development and QA to deliver a more scalable, user-friendly experience.

Personalized Wealth Management Experience

- Built and shipped the **full frontend** of a prescription-based wealth management platform with Claude Code, React, and Next.js, taking it from **concept to production** with one developer.

AI-Powered Video Creation Experience

- Designed the **MVP** of an AI platform for creating, customizing, and publishing short-form videos, covering creation workflows, templates, autopilot planning, and publishing.

Wizlo Marketing Website *(Award-winning)*

- Led design and development of the Wizlo marketing website, which **received an award** for the quality and impact of the work.
